

## NOVELSAT Launches the NovelNet NMS Satellite Network Management System

The company is offering a free trial and introductory package with both NovelNet NMS and NOVELSAT NS4 at a 50% discount

**Raanana, September 28, 2016** – NOVELSAT, a world leader in satellite transmission technology, today announced the official launch of their all new satellite network management system, NovelNet NMS. The new network management system accelerates deployment of both Point-To-Point and Point-To-Multipoint links. It reduces operating and maintenance costs, delivers complete lifecycle management for satellite communication hubs and remotes, maximizes satellite bandwidth allocation and reduces problem resolution time. Its features include:

- Bandwidth management and performance analysis
- Drag and drop network planning and provisioning
- Automated workflow management
- Bandwidth and service allocation on demand
- Service activation and bandwidth allocation scheduling
- Automated carrier power tracking and control

**NovelNet NMS Dashboard**

Through October 31, 2016, NOVELSAT is offering an introductory package that includes a free trial of NovelNet NMS plus NOVELSAT NS4™, with both priced at a 50% discount when purchased. NOVELSAT NS4 is the company's 4th generation satellite transmission waveform. It delivers high quality satellite signals for broadcasters and data service providers and is available on all NOVELSAT satellite modems, modulators and demodulators. In head-to-head demonstrations, NOVELSAT has shown NOVELSAT NS4™ outperforming the spectral efficiency of DVB-S2 by as much as 45%.

“We asked our customers what they thought was most important in a management system for their satellite transmission networks,” said Efi Levinzon, NOVELSAT 's CPO. “The result is NovelNet NMS, which we built from the ground up to deliver the features and functions that satellite users need.”

To take advantage of NOVELSAT 's two-in-one offer, satellite users can contact the company directly at [info@a93001-tmp.s743.upress.link](mailto:info@a93001-tmp.s743.upress.link) or ask their local NOVELSAT representative for a free trial, pricing and details.

## About NOVELSAT

NOVELSAT is a leading provider of next-generation content connectivity solutions. Powered by innovative technologies, our broadcast and broadband solutions are transforming networks' capabilities to expand growth potential and to drive new experiences on any device, anytime, anywhere. Our high-performance products for satellite and terrestrial content connectivity include integrated video solutions and highly efficient broadband connectivity solutions, as well as best-in-industry content security solutions. Transforming delivery of data and video with new levels of performance, efficiency, agility, and security, NOVELSAT empowers mission-critical and demanding applications for the telecom, enterprise, media, entertainment, government, and mobility markets.
